

PSANZ Perinatal Mortality Group & ANZSA WORKSHOP

PSANZ Perinatal Mortality Group (<http://www.psanzpnmsig.org>)

In collaboration with

Australia and New Zealand Stillbirth Alliance (www.stillbirthalliance.org.au)

present a satellite meeting of the PSANZ Congress 2010
to include the PSANZ PMG/ANZSA Annual General Meeting

Themes: Antenatal fetal monitoring
Cultural diversity in bereavement care
Priority setting for stillbirth research

When: Saturday 27th March 2010
Wellington, New Zealand
12:30 pm – 5:00 pm

Venue: Wellington Convention Centre
111 Wakefield Street
Wellington 6011
Wellington, New Zealand

Cost: \$70

This half day workshop prior to the PSANZ Congress will focus on antenatal fetal monitoring in the Australian and New Zealand regions. Addressed also at this workshop is how approaches to bereavement differ in different cultural settings.

A half day IMPROVE program - designed to implement the PSANZ Guidelines - will be held on Sunday 28th March.

Program:

12:30 pm - 1:00 pm	Registration
1:00 pm – 2:45 pm	Presentations
2:45 pm – 3:00 pm	Afternoon Tea
3:00 pm – 5:00 pm	Presentations

ABSTRACT SUBMISSION DEADLINE Friday 5th February

An invitation is extended to investigators wishing to present either an oral (up to 10 mins) or a poster presentation. Please submit short abstracts for inclusion in conference material to Vicki.Flenady@mater.org.au and madeleine.elder@mater.org.au

ABSTRACT FORMAT: Abstracts for oral or poster presentations should be in 11 point, Arial font and fit on a single A4 page with margins of 2cm on all edges, single-spaced and fully justified.

IMproving Perinatal Review Outcomes Via Education (IMPROVE) Program

Using the SCORPIO methodology- a teaching approach based on Structured, Clinical, Objective-References, Problem-orientated, Integrated and Organised learning

Approved by the Midwifery Council of New Zealand

Awaiting approval from

Australian College of Midwives (ACM)

and

Royal Australian and New Zealand College of Obstetricians and Gynaecologists (RANZCOG)

When: Sunday 28th March 2010
1:00 pm – 5:30 pm
Where: Wellington, New Zealand
Venue TBA
Cost: \$110

In 2008, ANZSA and the PSANZ-Perinatal Mortality Group developed, piloted and refined an educational program to assist with the implementation of the PSANZ perinatal mortality guidelines into practice. Created for clinicians, obstetricians, gynaecologists, pathologist, midwives, bereavement specialists and other professionals working in perinatal medicine, this program is designed to address the educational needs of all health professionals involved in maternity and newborn care in managing perinatal death.

The IMPROVE Program uses the SCORPIO methodology - a medium for skills training based on small-group, participant centred, interactive, multi-disciplinary teaching. The method is based on best evidence that this form of teaching will lead to moderate to large changes in clinician behaviour and with best evidence content has been used successfully to reduce perinatal mortality. Participants are grouped into a number of interactive stations which are directly organised around the sections of the PSANZ perinatal mortality guidelines.

Stations:

Station 1: Communication with families regarding autopsy

Station 2: Placental and post mortem examination

Station 3: Investigation of perinatal deaths

Afternoon Tea

Station 4: Examination of babies who die in the perinatal period

Station 5: Perinatal Mortality Classifications

Station 6: Bereavement Support

To register please complete a registration form and fax to (07) 3163 1588, email to madeleine.elder@mater.org.au or send to: ANZSA Secretariat, Mater Health Service, Level 2 Quarters Building, Annerley Rd, Woolloongabba, QLD, 4102
